

Certificate of Remediation of Mold, Spores and Odor SecuRx Solutions, LLC

December, 27th 2023

This certifies that the house at 341 Afton Ave, Youngstown, Ohio has been treated for mold, spores, and any other microbiological contaminant with 100% pure chlorine dioxide gas manufactured for SecuRx Solutions, LLC by Selective Micro Devices, Dublin, Ohio at levels over 500 ppm for 2 hours. This patented technology does not leave behind any VOCs or BPDs (byproducts of disinfection) such as chlorines, chlorites, chloramines, or trihalomethanes. Byproducts of this process are oxygen and water.

SMT Chlorine dioxide is Certified Organic by OMRI, and approved by both EPA and FDA, as well as Health Canada, and been proven to be a hospital grade sterilant with no known ability to damage human tissue. It is an EPA designated Class IV disinfectant, deemed the safest for use for human occupation. It has a 5 year warranty against a reoccurrence, unless it is determined that a substantial water ingress has occurred.
