## IMPROVEMENT LOCATION SURVEY

The purpose of this Survey is to provide a representation of the information gathered at the time of inspection for the interested parties. This Survey is based on existing but not confirmed boundary evidence and is subject to any inaccuracies that a Boundary Survey might reveal. It is not intended to be a Boundary or Property Line Survey, and all dimensions are of record and no corners were set. This should not be relied on for establishment of any fence, building or other improvements. No responsibility is extended hereon to the present or future landowners.
