The purpose of the PVGCD is to conserve, preserve, protect, and recharge the groundwater resources and prevention of waste of groundwater resources, over which it has jurisdictional authority, for the benefit of the District constituents in DeWitt County. If an active or abandoned water well of any type is located on your property, you are required by PVGCD to register the well and/or transfer well ownership.

Before any new water well may be drilled or completed, it must be registered with the PVGCD and receive specific authorization to commence drilling. There is no need to register a well that has been permanently plugged. Depending on the type and or use of the well, it is possible that the well will additionally require an operating permit. Forms, Rules and further information regarding this process can be found on the District's website at www.pvgcd.org. For small tract purchases, please note the District's Rule 7 - Spacing Requirements.

The undersigned purchaser hereby acknowledges receipt of the foregoing notice prior to closing of the purchase of the real property described in such notice and agrees to file a copy a copy with the PVGCD.
