Certified Pre-Owned Home Inspection Report Disclosure

This report is for informational purposes only and should not be relied on for anything more than information. No inspection can see everything. We encourage you, the Buyer, to seek your own home inspection. By giving you this report we are not, in any way, implying or influencing the Buyer to not complete your own home inspection.

1. The report is NOT an all-encompassing report dealing with the building from every aspect. It is a reasonable attempt to identify any obvious or significant defects apparent at the time of the inspection. Whether or not a defect is considered significant or not, depends, to a large extent, upon the age and type of the building inspected. This report is not a Certificate of Compliance with the requirements of any act, statute, rule, regulation, ordinance, declaration, or by-law.
2. **THIS IS A VISUAL INSPECTION ONLY** limited to those areas and sections of the property fully accessible and visible to the inspector on the date of inspection. The inspection will cover physical, mechanical, pest, and septic inspections. The inspection DOES NOT include breaking apart, dismantling, removing or moving objects including, but not limited to, foliage, moldings, roof insulation, floor or wall coverings, sidings, ceilings, floors, furnishings, appliances or personal possessions. The inspector CANNOT see inside walls, between floors, inside roofing, behind stored goods in cupboards, other areas that are concealed or obstructed. The inspector WILL NOT dig, gouge, force, penetrate or perform any other invasive procedures. Visible timbers CANNOT be destructively probed or hit without the written permission of the property owner.
3. The report does not and cannot make comment upon: defects that may have been concealed; the assessment or detection of defects (including rising damp and leaks) which may be subject to the prevailing weather conditions; whether or not services have been used for some time prior to the inspection and whether this will affect the detection of leaks or other defects (e.g., in the case of shower enclosures the absence of any dampness at the time of the inspection does not necessarily mean that the enclosure will not leak); the presence or absence of timber pests; gas-fittings; common property areas; environmental concerns; the proximity of the property to flight paths, railways, or busy traffic; noise levels; health and safety issues; heritage concerns; security concerns; fire protection; site drainage (apart from surface water drainage); swimming pools and spas (non-structural); detection and identification of illegal building work; detection and identification of illegal plumbing work; durability of exposed finishes; neighborhood problems; document analysis; electrical installation; any matters that are solely regulated by statute; any area(s) or item(s) that could not be inspected by the consultant. Accordingly, this report is not a guarantee that defects and/or damage does not exist in any inaccessible or partly inaccessible areas or sections of the property. (Such matters may, upon specific request, be covered under the terms of a so-called special-purpose property report).
4. Report Ownership: The inspector named on the report will remain the owner of the report at all times. The fee paid by Client is for the physical inspection only.
