Lead Warning Statement

Every purchaser of any interest in residential real property on which a residential dwelling was built prior to 1978 is notified that such property may present exposure to lead from lead-based paint that may place young children at risk of developing lead poisoning. PRIVATE WATER WELLS

Inspection

In Louisiana, private water wells are largely unregulated, leaving property owners responsible for any maintenance, care, or testing of their wells. Further, lenders may require varying testing and inspection(s)

of wells for real estate transfers. Accordingly, Buyers are advised to ask their lender whether an inspection(s) or other testing is required as a condition of financing. Additional information regarding private water well testing and the Louisiana Private Well Initiative may be found by calling 1-888-293-7020 or at: [Louisiana Well Owner Network](#).

Registration

Newly constructed and other water wells are typically required by law to be registered with the Louisiana Department of Natural Resources, Office of Conservation (“Department”), within certain time periods following construction completion. Additionally, the Department encourages owners of older, reworked wells and / or un-registered water wells, which were constructed prior to November 1, 1985, to contact the agency regarding well registration. Additional information can be found at: [Office of Conservation](#).
