IMPORTANT LOAN INFORMATION

You are currently on the low Choice Monthly Payment amount and rate for your loan. In order for you to maintain your Choice Monthly Payment amount, you must make prepayments to reach your Choice Balance Target by the date indicated herein and in your loan agreement. Upon your Choice Balance Date, your loan will re-amortize. The re-amortization will cause your monthly loan payment to increase if you do not meet your Choice Balance Target. Under certain circumstances, your interest rate may also increase. For further information, please refer to your Home Solar Loan Agreement for details, or reach out to us with any questions.

Remember that to keep your low monthly loan payments and/or interest rate, you must make prepayments to reach your Choice Balance Target. Along with your required monthly payment, you may make a prepayment by simply writing your check for a larger amount. You can make prepayments at any time without penalty; the earlier you make prepayments, the less you have to pay over the life of your loan. Please note that prepayment(s) are optional.

IMPORTANT TAX INFORMATION

As you prepare to file your federal tax return, it's important to remember to claim your federal solar tax credit. The federal tax credit may cover a portion of the solar system costs. It's important to understand that the federal tax credit is not guaranteed if you paid little or no taxes the year that you purchase your system. For more information on tax credit requirements, visit: <https://joinmosaic.com/how-does-federal-solar-tax-credit-work> and search "Residential Energy Credits" on the website of the IRS: www.irs.gov.

PREPAYMENTS

Whether you're about to make your first payment or if you already hit your 30% Choice Target amount, there are significant benefits to making prepayments and paying down your loan early. Prepayments can help shorten the term of your loan and save you money over the term by lowering your accrued interest. Along with your required monthly payment, you can make a prepayment simply by paying an additional amount through our borrower portal at solarservicing.myaccountinfo.com, or by writing your check for a larger amount.

AUTOMATIC PAYMENTS

Tired of paper checks and bills? Save time and money by paying by automatic debit (ACH). SOLAR SERVICING charges no fees to pay by ACH, so the switch to ACH equals money in your pocket! Aside from the financial benefits, removing the postal service and the banks from the equation makes the timing of your payments far more predictable. Paying by ACH reduces the chances of forgetting a payment, defaulting on your loan, or sending in payments late and incurring fees.

Log in to our borrower portal at solarservicing.myaccountinfo.com, click "Setup Automatic Payments" and follow the instructions for adding your bank account, and you will be set up for monthly ACH auto-payments.
